

A UNIQUE ROLLER SYSTEM THAT GET'S YOUR PRODUCT TO THE SHELF EDGE

APM will deliver products at a much lower angle than currently used in retail (between 3 and 6 degrees) creating more usable space for the retailer. This allows more products to be arranged in a smaller area. No labor required to continually pull stock forward.
Increase of sales as products are continuously at eye level

Perfect for the following categories: Milk - Drinks - Vitamins - Spices - Health & Beauty

Perfect for the following product packaging: Cans - Jars - Bottles - Boxed
